**In a nutshell – a rating system thought from Scuttlebutt Sailing News contributor Frederic Roswold: “I'd rather see the 80/20 rule applied. Let's make PHRF 80% better but only 20% more complicated. We don't have to make it so that all boats are virtually equal in every possible condition. Perfect is the enemy of good.”**

**Sometimes, an unusual opportunity comes along – this may be the one for you.** The owner **Rick Peterson** says his **Flying Dutchman** is, “*Sleek, mahogany, open transom bailers, and more control lines that you can trace, much more interesting than a plain old Lighting.* ‘What’s that?!’ “Oh son, that’s a Flying Dutchman, you don’t want to have anything to do with that!’ *my Dad answered his overly excited bowman. Fast forward to 2008 looking for a performance racing dingy to sail with my sons and found a Flying Dutchman project boat*”. Now, Rick is going to let the Dutchman go. **Flying Dutchman, #444, fully restored, ready to sail and looking for a new adventure.** He says this boat was a joy to restore and to teach his boys to sail. Moves fast even in light air and hang on if it is honking. CONTACT Rick at 804 356 8941.

**MURPHY'S LAW:** *Yrs Truly, the Racing Beagle*, has used the rainy days to test drive some new racing footwear. Tried sport lace-ups, slip-ons, treaded flip-flops and good ole Converse high-tops. So far the leader in the tests for best is. . . bare feet [paws]. They don't cost anything and if they get stinky, ya just muddle through a puddle. /S/ *Murphy the Racing Beagle, the sailing spirit in us all.*
